HDO Mounting

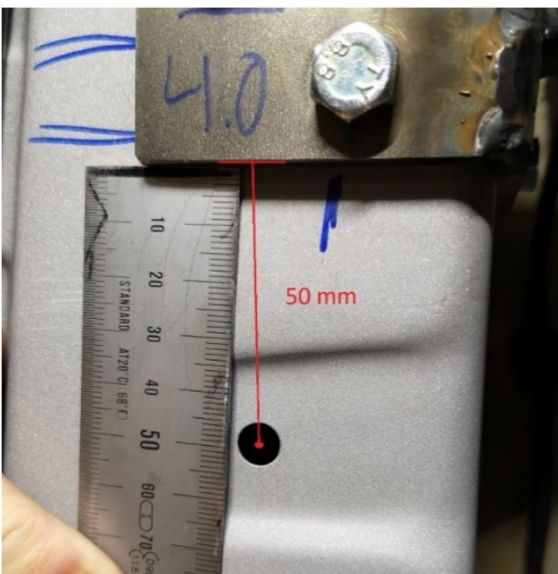

## HDO MOUNTING

PEUGEOT RIFTER – OPEL COMBO - CITROEN BERLINGO – TOYOTA PROACE CITY  
Version 1,1

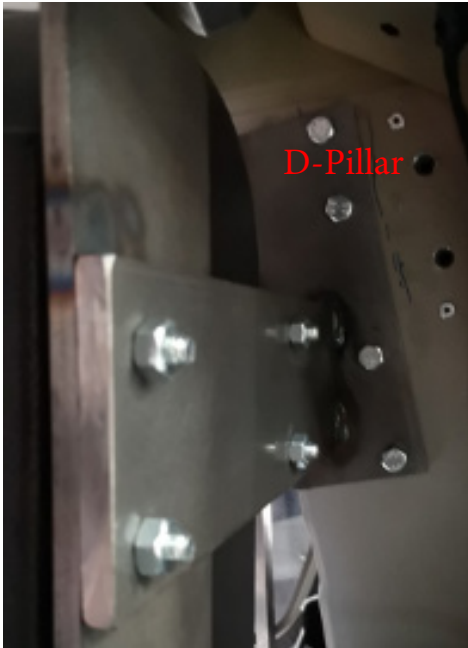

Mount the HDO bracket on the left rear pillar (D Pillar)

Use bracket as template  
Drill 11mm holes, and mount the supplied Pop Nut. Then screw the bracket in place.

Keep a distance to the marked hole of 50 mm.

Collect the 2 HDO bracket

Mount the bracket to pull the tailgate / Hatch. Use the supplied bracket as reinforcement on the Back/inside.

Holes must be drilled for mounting. Use the bracket as a template.

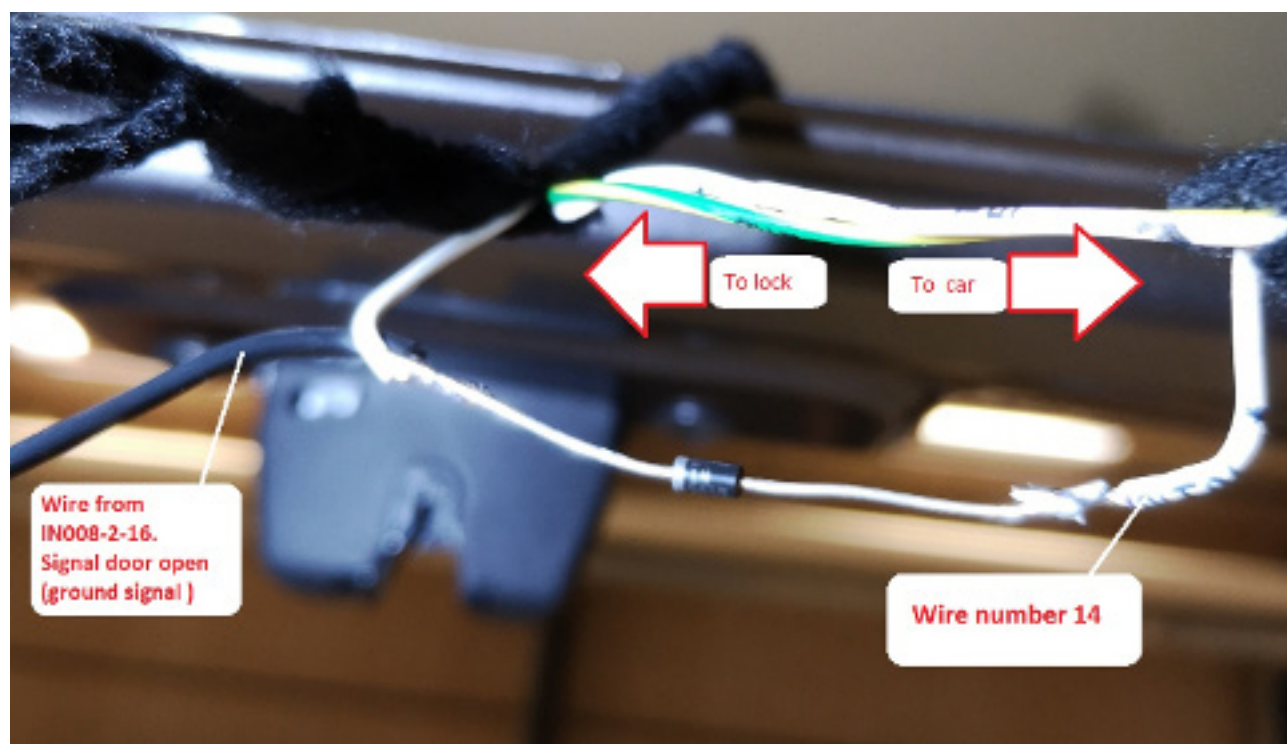

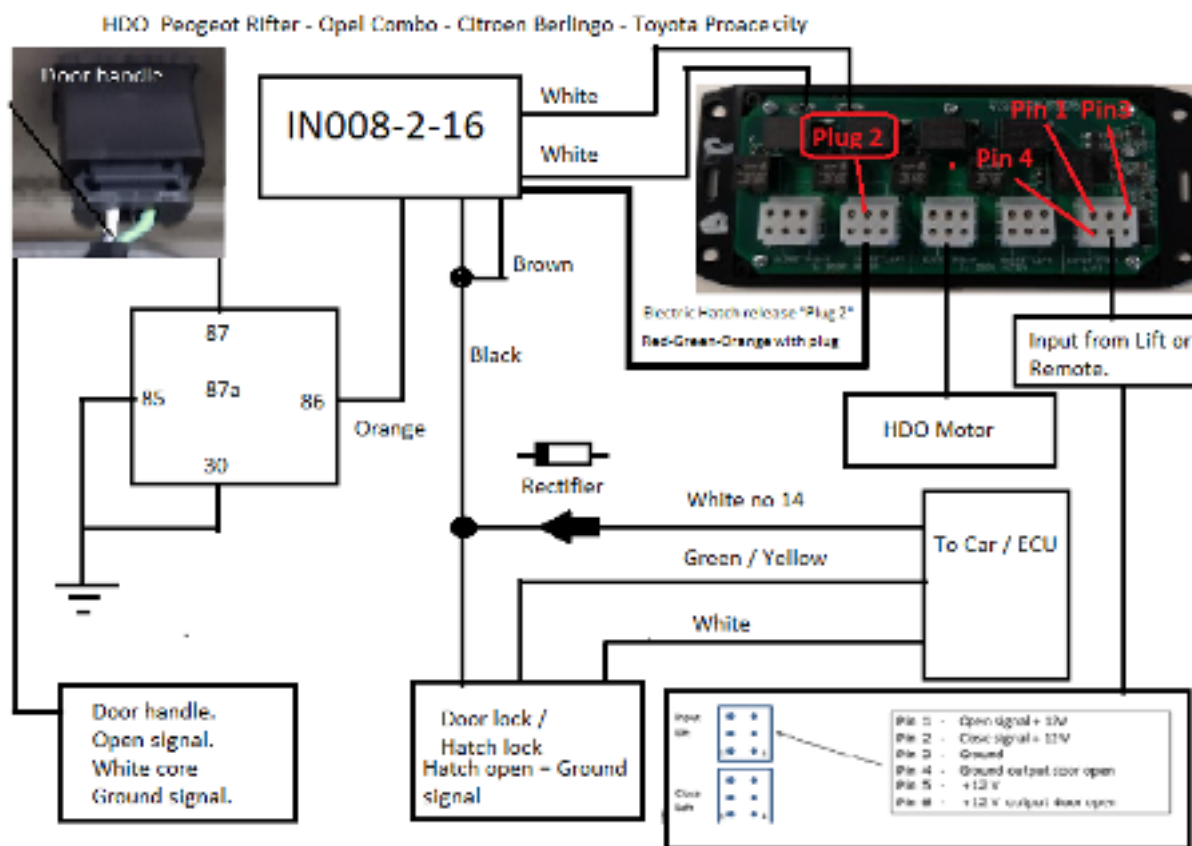

Switch, Stops motor in open phase

Contact, Stops motor in closing phase
